

HULL & MACHINERY SERVICES

WE GO ANYWHERE, ANYTIME!

DLS has one of the largest concentration of NAMS surveyors in the marine industry. Our experienced professionals provide a wide range of hull and machinery services including audio gauging, general condition and the specialized offerings below.

DAMAGE SURVEYS

Our large, experienced team enables immediate response and fast turn-around of complete and accurate reports.

SALVAGE

DLS has deep experience in monitoring salvage operations for sunken and partially sunken vessels, equipment and yachts. Ideal for partnering on salvage project bids.

DIGITAL INSPECTIONS

An industry pioneer in the use of drones, high-resolution 360° compartment imaging, and other digital survey technology.

LOADING, SECURING, TRIP-IN-TOW, TRIP UNDER POWER

Expert analysis and approval of cargo and equipment loading and stowing for domestic and international transit.

ON/OFF-CHARTER SURVEYS

Detailed, accurate charter surveys can include our "DLS 360" digital/drone surveys with a full high-resolution capture of vessel condition.

EXPERT WITNESS

Our expert witness services include valuation, safety, damage, USCG regulations, cargo handling, navigation and much more.

MACHINERY FAILURE ANALYSIS

Decades of experience in supporting various parties for complex failure analysis cases.
