

# INLAND DEPARTMENT SERVICES

The Inland Department provides comprehensive and accurate surveys from Baton Rouge, Louisiana to the mouth of the Mississippi River. We have professional relationships with all repair facilities and wash docks throughout the area.

## WALK AROUND, GENERAL CONDITION, POST LOAD AND DAMAGE SURVEYS

Detailed and comprehensive surveys which inspect the overall integrity of the subject and loaded cargo as well as give recommendations for any damage found

## ON / OFF CHARTERS - IN SERVICE

Reliable and timely charter surveys with clear documentation of the current condition of the vessel or vessels

## TRIP-IN-TOW

Expert analysis and approval of cargo, equipment loading and stowage of goods to secure a safe passage for vessels

## LOAD-SECURE-TRIP

Certifies the safe operations of loading cargo into a vessel and transit safety

## FUEL AND LUBE OIL SOUNDINGS

Precise fuel and lube oil soundings recorded prior to motor vessels departure to provide exact fuel amounts expended during the chartered period

## HEAVY LIFT

Oversees satisfactory use of equipment and that cargo is loaded to precise diagram specifications

## BULK AND GENERAL CARGO

Monitors the overall transfer process of cargoes to ensure documentation of all damage, delays and machinery casualties

## AUDIO GAUGING

Determines the overall thickness and integrity of steel surfaces on vessels
